School

*Smart Schools Preliminary Investment Plan*

*July 1, 2015*

# Allocation - \$1,296,170

The AuSable Valley Central School has identified three (3) main areas for investment through the Smart Schools Bond Act.

1. **Wireless Internet/Network Connectivity;** The District currently has very limited wireless coverage. We do have a wireless controller already in place capable of handling the District's wireless plan. The plan would include cat 6 wiring and the addition of over 100 wireless access points throughout the entire District. Budget-\$300,000,
2. **Acquire Learning Technology;** The District plans on purchasing several different types of devices. Laptops and tablets will be purchased and put directly in the hands of the students. Desktop computers, servers and switches will also be purchased to enhance the District's technology. Interactive whiteboards will also be acquired. Budget-\$600,000

# Allocation - \$1,296,170

3. Security and Access Controls; The District plan includes changing out all analog cameras, adding cameras to areas not covered, and changing to a computer based recording system. The plan would also include building access controls.

Budget-\$330,000

The preliminary budget would leave \$66,170 as unallocated to cover any Architect, Engineering or other costs.
